Content Provider Agreement & Consent

FlickChat | OZZ ASPHALT PTY LTD | ABN 52 697 409 233 | ACN 697 409 233 Version 1.0 • Sample for merchant review • Not yet approved for signature

This agreement is between OZZ ASPHALT PTY LTD (FlickChat) and the verified individual content provider (Provider). It sets the conditions for creating, submitting or streaming content on FlickChat.

1. Eligibility and identity verification

The Provider must be at least 18 years old and meet any higher legal age requirement applicable to their participation. Before providing content or hosting calls, the Provider must complete identity and age verification using valid government-issued identification through FlickChat's designated verification service (Veriff, subject to production activation). The Provider must provide accurate information, use only their own account and cooperate with necessary re-verification.

2. Voluntary participation and consent

Participation must be voluntary, informed and free from coercion. The Provider may refuse any activity or end a session at any time. The Provider must not pressure another person to participate. Consent to this agreement does not constitute consent to every future activity or waive any legal rights.

3. Consent to content distribution

For content that the Provider separately chooses to submit or stream, the Provider authorises FlickChat to display and transmit that content to its intended eligible audience within the platform, subject to content-specific consent, moderation and removal rights. Public distribution requires explicit written permission from each depicted person. Downloads, recording and redistribution are not authorised under this agreement; any proposed download feature requires separate express written consent from all depicted persons and platform approval.

4. Additional participants and content approval

The Provider must not include another person in any upload or live session until FlickChat has verified that person's age and identity and recorded their written consent to appear and to the intended distribution, and to downloads if ever applicable. The Provider must obtain and retain supporting consent records and provide them to FlickChat on request. Uploaded content must be submitted for approval before publication; live sessions require approved safety controls and monitoring coverage.

5. Earnings, payments and withdrawals

The agreed base rate is AUD $0.25 per eligible paid call minute (AUD $15 per 60 eligible paid minutes). This is not a guarantee of call volume or hourly income. Earnings are calculated from valid metered paid calls. The payout method, payment schedule, minimum withdrawal amount, any fees and dispute process must be disclosed and agreed in writing before paid participation begins. Payments may be delayed only where reasonably necessary for verification, fraud investigation or legal obligations, with notice where lawful. Applicable statutory pay and other entitlements take precedence.

6. Prohibited activities and content

The Provider must comply with applicable laws, FlickChat rules and applicable card-network requirements. Content involving minors, child sexual abuse material, non-consensual conduct, exploitation, trafficking, coercion, physical abuse, illegal activity or prohibited material is forbidden. The platform must not be used to arrange prostitution, trafficking or prohibited in-person services, or to promote such activity through profiles, messages, search terms or marketing. The Provider must promptly report suspected violations and must not upload, distribute or retain unlawful material.

7. Moderation, removal and withdrawal of consent

The Provider acknowledges that disclosed, authorised safety monitoring and moderation may occur. Any depicted person may request removal of content or withdraw consent through FlickChat's published complaints and removal channel, without needing to be an account holder. FlickChat must promptly restrict disputed content where appropriate, investigate, remove unlawful or non-consensual material, and provide an appeal pathway. Consent withdrawal stops future use to the extent required; legally required evidence and records may be retained securely. No person may be penalised for refusing participation or making a good-faith report.

8. Account suspension and termination

FlickChat may interrupt sessions, restrict content or suspend or permanently close accounts for safety violations, failed verification, fraud or other material breaches. The Provider may stop participating and close their account. Reasons and review options will be provided where lawful and safe, and legitimately earned payments will be dealt with under applicable law and the agreed payout terms.

9. Electronic agreement and records

By signing or affirmatively accepting this version electronically, the Provider confirms that they have read and understood the terms and agree voluntarily. FlickChat must retain the accepted version, verified account reference, signature or affirmative acceptance, and acceptance date and time, together with relevant verification and consent records. Material changes must be communicated and accepted before they apply. Nothing in this agreement excludes non-waivable legal rights.

Provider acceptance (sample)

Legal name: _____ Account ID: _____

Signature / electronic acceptance: _____

Date and time (including time zone): _____ Agreement version: 1.0

Company approval: _____ Date: _____

Draft status: The payout schedule, withdrawal threshold, fees, complaint contact and operational verification and monitoring controls must be finalised before use. Australian legal review and review of applicable laws in other operating jurisdictions are required.
